Why Buy From Us? Here are some reasons:

- Diverse Aftermarket Product Line
- Motorola Original Accessories
- Audio Accessories
- Antennas
- Batteries
- Carrying Cases
- Chargers
- Same Day Ship
- Replacement Parts
 - Proprietary and Non Proprietary
- Module Exchange Program
- Cosmetic Options
- Test Equipment
- Shop Supplies
- Site Equipment
- Radio Support Center Solutions
 - On Demand Repair
 - Radio Repair Bank
 - Depot Direct
- Express Service Plus (ESP)
- Value Added Special Program

For quality products, optimum performance, great value and support solutions, count on Motorola Radio Products and Services Division.

THE MALCOLM BALDRIGE NATIONAL QUALITY AWARD. BEYOND QUALITY: BEST BUSINESS PRACTICES TO EMULATE.

The Malcolm Baldrige National Quality Award is the United States Premier award for business excellence and quality achievement. Named after the Secretary of Commerce under President Ronald Reagan, the Malcolm Baldrige Award has been granted to just 49 organizations since its inception in 1984. We have been honored twice with the award:

1988– Motorola Inc. 2002–Motorola CGISS*

Receiving a Baldrige Award gives our customers third-party validation that we are dedicated to improving business performance. The end result is consistent high-quality, high value products and services — from people who are truly committed to excellence.

^{*}Motorola Commercial, Government and Industrial Solutions Sector (CGISS) is a leading provider of integrated communications and information solutions with 65 years of experience in meeting the safety and security mission-critical requirements of of public safety, public service, government and enterprise customers worldwide.

MALCOLM BALDRIGE AWARD: SYMBOL OF EXCELLENCE

THE CRITERIA

Thousands of companies have used the Baldrige Criteria to assess performance and measure their progress relative to a recognized compilation of best practices.

To qualify for the Baldrige Award, organizations are evaluated along 7 dimensions:

- Leadership
- · Strategic Planning
- Customer and Market Focus
- Information and Analysis
- Human Resource Focus
- Process Management
- Business Results

These Baldrige Criteria were used to identify performance touchstones that deliver outstanding business value. As a result of the Baldrige evaluation, Motorola strengths were:

- Leading worldwide supplier with strong financial performance.
- Best-in-class supplier with quality ratings that are 21% higher than the nearest com-
- Leading-edge product quality, cycle time and productivity
- Extensive and long term customer/industry association and involvement with customer user groups
- First ever OSHA Voluntary Protection Program participant with zero corrective items. VPP star recognition.

CLEAR COMFORTABLE EARPIECE

RLN4760A Small Custom Earpiece, right ear
RLN4763A Small Custom Earpiece, left ear
RLN4761A Medium Custom Earpiece, right ear
RLN4764A Medium Custom Earpiece, left ear
RLN4762A Large Custom Earpiece, left ear
Large Custom Earpiece, left ear

The clear comfortable earpiece forms to the inside of your ear and is perfect for low noise environments. Compatible with the NTN8371A, clear acoustic tube assembly, and surveillance kits (1, 2 and 3-Wire). This earpiece is made of easy-to-clean chemically inert, hypoallergenic material. Does not provide hearing protection. There are 3 items needed to make this product work:

- Clear Comfortable Earpiece
- Clear Acoustic Tube Assembly (NTN8371A)
- Surveillance Kits

Acoustic Tube with Earphone

COMPLETELY DISCREET EARPIECE

RLN4922A Completely Discreet Earpiece Kit; includes wireless earpiece,

inductive neckloop, 6 spare batteries and 5 spare ear wax guards

RLN4919A Ear Wax Guards, pack of 5 RNN4005A 1.4V Battery, pack of 6

Remain discreetly in touch with this miniaturized receiver. All messages received through the user's two-way radio are inductively relayed to the wireless earpiece in the user's ear. Inductive neckloop is easily hidden under the user's clothing for covert operations. Neckloop attaches to the user's Motorola Surveillance Kit providing completely discreet two-way communications. Security operatives, public safety officials, and private investigators can communicate with ease without any visible equipment. Small as it is, it offers a full range of audio functions including automatic squelch, automatic gain control and noise filtering. Must be used in conjunction with a Motorola Surveillance Kit. Just remove the earpiece on any standard 2 or 3-Wire Surveillance Kit and plug in the Neckloop for completely discreet communication.

Audio Accessories

EAR MICROPHONE SYSTEM (EMS)

BDN6677A* Ear Microphone for standard noise levels (up to 95dB), Black BDN6678A* Ear Microphone for standard noise levels (up to 95dB), Beige BDN6641A* Ear Microphone for high noise levels (up to 105dB), Grey

This compact unit picks up the voice through bone vibrations in the ear canal. The miniature earpiece leaves the hands free and face unobscured when worn by rescue and hazard protection personnel, who still retain the ability for direct hearing and speaking. For personnel required to wear breathing apparatus, communications with protective masks are as clear as communications without. And its high speech clarity under noisy environments makes it ideal for high noise environments. Available in PTT or Voice Activated (VOX). Interface Module is required and must be ordered separately.

Motorola Original Batteries are ruggedly designed for lasting durability and system tested with Motorola two-way radios to ensure optimum performance. We offer three chemistry alternatives as well as various capacity offerings, allowing the user to select the ideal battery for his or her needs. NiCd is best suited for extreme-temperature operation and provides the maximum number of charge/discharge cycles. NiMH and Li-ion batteries offer extended duty cycles — providing more talk time per shift.

impres batteries, when used with an impres charger, provide automatic, adaptive reconditioning, end of life display, and other advanced features. Data is stored in the battery and communicated to the charger via a unique impres communication protocol which is designed to maximize talk time and optimize battery cycle life — all automatically.

Chargers

SINGLE-UNIT RAPID UNIVERSAL TRI-CHEMISTRY CHARGERS

NTN1667A 110V Universal Charger NTN1668A 220V Universal Charger NTN1669A 240V Universal Charger

These chargers support Nickel Cadmium, Nickel Metal Hydride, and Lithium-ion batteries. They will rapid charge most batteries to 90% capacity in one to two hours and employ trickle and maintenance modes that ensure batteries are safely charged to their full capacity.

MOTOROLA CONDITIONING CHARGER (MCC)

(included in RLN4814)

RLN4814A Vehicular Mounting Bracket and Hard Wire Cable for Single-Unit

Motorola Conditioning Chargers

The MCC utilize negative pulse charging technology that will help extend battery life and enhance battery operation. It will safely condition and charge your Nickel Cadmium (NiCd) and Nickel Metal Hydride (NiMH) batteries in one to two hours. The MCC controls heat buildup due to its charging and termination algorithms and its maintenance mode allows batteries to be safely left on the charger for extended periods of time. Optional accessories are available allowing these chargers to be used in both AC and DC environments providing optimal charging flexibility.

Chargers

Porta-Pocket™ CHARGER

The Porta-Pocket Charger provides a regular rate 16-hour charge to Nickel Cadmium (NiCd) batteries.

Chargers

impres™ SMART ENERGY SYSTEM

WPLN4111AR impres Single Unit Charger, 110V

5889254E01 Battery Adapter (required for batteries NTN4538DR,

NTN4593DR, NTN7014BR and NTN8818A)

The impres smart energy system ensures maximum talk-time and optimized battery cycle life through the use of its advanced charging algorithm and automatic reconditioning features. The smart energy system reconditions impres batteries when they need it, automatically, keeping them in peak condition. Its advanced conditioning features allow batteries to be safely left on the charger for extended periods of time without incurring the damaging heat build-up which can rob batteries of cycle life. In addition, batteries left on the charger are kept fully charged so they are always ready when you need them. The impres system reconditions batteries when they need it based on their usage pattern. Talk time and cycle life are optimized and the need for manual maintenance programs reduced or eliminated. This rapid-rate tri-chemistry charging system will also charge existing legacy batteries and supports multiple radio platforms including SABER, XTS, and HT 1000 series portables.

NLN7967A Wall Mount for Multi-unit Charger

Charger Display Modules provide powerful "real time" analyzing information for impres batteries, including current charge status; current battery mAh; percent rated capacity, battery voltage; battery kit number; battery serial number; battery chemistry; time remaining to charge complete (NiCd and NiMH); forecast number of cycles to next reconditioning; and more.

Chargers

impres™ INDIVIDUAL CHARGER DISPLAY MODULE

RLN5382A Charger Display Module for impres Multi-Unit Charger Version 1.3 or Later

These modules are designed to be retrofittable with the standard impres™ Multi-Unit Charger WPLN4108BR. Up to six modules can be purchased per charger, one for each charging pocket. Includes detailed installation instructions. Note: The version number is referenced on the label located on the bottom of the impres™ Multi-Unit charger. If no version is shown, it is version 1.2 or earlier. For example, version 1.3 will appear as V1.30.

RLN5591A Charger Display Module for impres Multi-Unit Charger Version 1.2 or earlier

Compatible with Multi-Unit Charger version 1.2 or earlier. These modules require a software flash update from the Radio Support Center. Display modules are added at the Radio Support Center. Details included with each shipment. Note: The version number is referenced on the label located on the bottom of the impres™ Multi-Unit charger. If no version is shown, it is version 1.2 or earlier. For example, version 1.2 will appear as V1.20.

BATTERY MAINTENANCE SYSTEMPLUS (BMSPLUS)

WPLN4079BR Six-Station, 110V AC, 50/60 Hz *WPLN4080BR* Six-Station, 230V AC, 50/60 Hz

WPPN4085AR BMS^{Plus} Field Upgrade Kit for WPLN4079AR, WPLN4080AR,

and WPLN4081AR; allows these units to support Li-ion battery

chemistries

NDN4005B Three-Station, 110V AC, 50/60 Hz

(does not support Li-ion or 3-cell batteries)

NDN4006B Three-Station, 230V AC, 50/60 Hz

(does not support Li-ion or 3-cell batteries)

Increase the useful life of your batteries. Using interchangeable battery adapters (sold separately), the BMS^{Plus} is capable of charging and discharging, analyzing, conditioning, and cycle testing batteries. It supports NiCd, NiMH, and Li-ion battery chemistries (Li-ion on 6 station models only) and tracks batter voltage and capacity (mAh). Its easy-to-use design supports hundreds of 2-way, cellular, and camcorder batteries. The BMS^{Plus} offers a 3-year warranty and includes serial printer* port (RS-232).

BATTERY MAINTENANCE SYSTEMPLUS (BMSPLUS) ADAPTERS

TDN9450A NiCd Adapter, 7.5V

TDN9434A NiCd Adapter, 7.5V for use with NTN7058AR SABER R

WPPN4087AR NiCd and NiMH Adapter, 7.5V

WPPN4091AR Li-ion Only Adapter

^{*}Compatible with the STAR Micronics SP200 series printers, and other printers with STAR emulation.

RL-71203 BOS II, Battery Adapter

RL-72703 BOS II, Battery Adapter, SABER-R

With its speed, accuracy and versatility the Battery Optimizing System II (BOS II) provides powerful analyzing capabilities. Users can select from 12 resident pre-programmed service programs making it quick and easy to get up and running. And, because the BOS II is programmable, users can create custom programs to perform a wide variety of tasks specific to their needs. Features include:

- Quicktest™ diagnostic feature measures a battery's state of health in approx. 2 to 5 minutes
- Interchangeable adapter plates available for most Motorola Two-way radio batteries
- Accommodates NiCd, NiMH, Li-ion, and SLA
- 100-watt universal power supply provides up to 4 amps of power per station
- Ideal for service organizations, large fleet customers, and public safety users who rely of their batter performance

With increased power, more sophisticated programming options, and easier to use navigation paths, optimizing your batteries was never easier or faster.

CLEAR COMFORTABLE EARPIECE

RLN4760A Small Custom Earpiece, right ear
RLN4763A Small Custom Earpiece, left ear
RLN4761A Medium Custom Earpiece, right ear
RLN4764A Medium Custom Earpiece, left ear
RLN4762A Large Custom Earpiece, left ear
Large Custom Earpiece, left ear

The clear comfortable earpiece forms to the inside of your ear and is perfect for low noise environments. Compatible with the NTN8371A, clear acoustic tube assembly, and most surveillance kits (1, 2 and 3-Wire). This earpiece is made of easy-to-clean chemically inert, hypoallergenic material. Does not provide hearing protection.

There are 3 items needed to make this product work:

- Clear Comfortable Earpiece
- Clear Acoustic Tube Assembly (NTN8371A)
- Surveillance Kits

EAR MICROPHONE SYSTEM (EMS)

BDN6677A* Ear Microphone for standard noise levels (up to 95dB), Black BDN6678A* Ear Microphone for standard noise levels (up to 95dB), Beige BDN6641A* Ear Microphone for high noise levels (up to 105dB), Grey

This compact unit picks up the voice through bone vibrations in the ear canal. The miniature earpiece leaves the hands free and face unobscured when worn by rescue and hazard protection personnel, who still retain the ability for direct hearing and speaking. For personnel required to wear breathing apparatus, communications with protective masks are as clear as communications without. And its high speech clarity under noisy environments makes it ideal for high noise environments. Available in PTT or Voice Activated (VOX). Interface Module is required and must be ordered separately.

Motorola Original Batteries are ruggedly designed for lasting durability and system tested with Motorola two-way radios to ensure optimum performance. We offer three chemistry alternatives as well as various capacity offerings, allowing the user to select the ideal battery for his or her needs. NiCd is best suited for extreme-temperature operation and provides the maximum number of charge/discharge cycles. NiMH and Li-ion batteries offer extended duty cycles — providing more talk time per shift.

Motorola Conditioning Chargers

The MCC utilize negative pulse charging technology that will help extend battery life and enhance battery operation. It will safely condition and charge your Nickel Cadmium (NiCd) and Nickel Metal Hydride (NiMH) batteries in approximately one to two hours. The MCC controls heat buildup due to its charging and termination algorithms and its maintenance mode allows batteries to be safely left on the charger for extended periods of time. Optional accessories are available allowing these chargers to be used in both AC and DC environments providing optimal charging flexibility.

Chargers

impres™ SMART ENERGY SYSTEM

WPLN4111AR impres Single Unit Charger, 110V

5889254E01 Battery Adapter (required for batteries NTN4538DR,

NTN4593DR, NTN7014BR and NTN8818A)

The impres smart energy system ensures maximum talk-time and optimized battery cycle life through the use of its advanced charging algorithm and automatic reconditioning features. The smart energy system reconditions impres batteries when they need it, automatically, keeping them in peak condition. Its advanced conditioning features allow batteries to be safely left on the charger for extended periods of time without incurring the damaging heat build-up which can rob batteries of cycle life. In addition, batteries left on the charger are kept fully charged so they are always ready when you need them. The impres system reconditions batteries when they need it based on their usage pattern. Talk time and cycle life are optimized and the need for manual maintenance programs reduced or eliminated. This rapid-rate tri-chemistry charging system will also charge existing legacy batteries and supports multiple radio platforms including SABER, XTS, and HT 1000 series portables.

Flexible whip antennas have a one-piece finish and steel core for optimal radiation characteristics. Provides more comfort when radio is worn on the belt.

ASTRO® Digital XTS 3000, XTS 3500, XTS 5000 Radios

Radios offer exceptional features and functionality for plenty of communication power, including:

- Comfortable, ergonomic design
- X-Pand™ Audio Enhancement
- Precision controlled signaling features
- Priority scanning capabilities
- Easy reprogramming capabilities

REMOTE SPEAKER MICROPHONES (RSM)

NMN6193C* Remote Speaker Microphone

*NMN6191C** Noise Canceling Remote Speaker Microphone

0104010J46 Replacement Coil Cord Assembly for Remote Speaker Microphone

Allows you to talk and listen without removing the radio from the belt, case or charger. Ideal for high noise level environments. These water resistant microphones include: 6.0" coiled cord assembly, 3.5mm Earjack, swivel clip, and quick disconnect latch.

REMOTE SPEAKER MICROPHONES COMMANDER™ SERIES

RMN5021A* Commander Remote Speaker Microphone

RMN5023A Commander+ Remote Speaker Microphone. Fully submersible design. For a complete submersibly radio/microphone system use

with XTS 3000R, XTS 3500R and XTS 5000R portable radios.

The Commander™ Remote Speaker Microphone features an emergency button, volume control, 16-channel select knob with tactile feedback, 2 programmable buttons and a receive-only 3.5mm earphone jack, not included in submersible model. Users can access important controls without reaching for the radio. The Commander is ideal for firefighters, police and other professionals who frequently keep their XTS Two-way radio inside a case or under their clothing. Compatible with the XTS 5000, XTS 3000 and XTS 3500 Two-way radios only.

NMN6247A* Public Safety Microphone with Straight Cord, 30"; requires NTN8327ANMN6250A* Public Safety Microphone with Straight Cord, 24"; requires NTN8327A

NMN6251A* Public Safety Microphone with Straight Cord, 18"; requires NTN8327A

Public safety speaker microphones include straight cord assembly, 3.5mm earjack, swivel clip, quick disconnect latch, antenna connector, and receive audio high/low toggle switch. Antenna must be ordered separately. Use radio antennas. Requires NTN8327A RF adapter.

PUBLIC SAFETY SPEAKER/MICROPHONES (PSM) ACCESSORY

NTN7660B

Public Safety Tilt Switch. An external emergency switch that is activated when the unit is tilted at a greater than 60° angle; the emergency feature must be programmed in Radio to enable the tilt position

RLN4761A Medium Custom Earpiece, right ear
RLN4764A Medium Custom Earpiece, left ear
RLN4765A Large Custom Earpiece, left ear
Large Custom Earpiece, left ear

The clear comfortable earpiece forms to the inside of your ear and is perfect for low noise environments. Compatible with the NTN8371A, clear acoustic tube assembly, and surveillance kits (1, 2 and 3-Wire). This earpiece is made of easy-to-clean chemically inert, hypoallergenic material. Does not provide hearing protection. There are 3 items needed to make this product work:

- Clear Comfortable Earpiece
- Clear Acoustic Tube Assembly (NTN8371A)
- Surveillance Kits

RLN4922A

COMPLETELY DISCREET EARPIECE

RLN4922A Completely Discreet Earpiece Kit; includes wireless earpiece,

inductive neckloop, 6 spare batteries and 5 spare ear wax guards

RLN4919A Ear Wax Guards, pack of 5 RNN4005A 1.4V Battery, pack of 6

Remain discreetly in touch with this miniaturized receiver. All messages received through the user's two-way radio are inductively relayed to the wireless earpiece in the user's ear. Inductive neckloop is easily hidden under the user's clothing for covert operations. Neckloop attaches to the user's Motorola Surveillance Kit providing completely discreet two-way communications. Security operatives, public safety officials, and private investigators can communicate with ease without any visible equipment. Small as it is, it offers a full range of audio functions including automatic squelch, automatic gain control and noise filtering. Must be used in conjunction with a Motorola Surveillance Kit. Just remove the earpiece on any standard 2 or 3-Wire surveillance kit and plug in the neckloop for completely discreet communication.

EAR MICROPHONE SYSTEM (EMS)

BDN6677A* Ear Microphone for standard noise levels (up to 95dB), Black
BDN6678A* Ear Microphone for standard noise levels (up to 95dB), Beige
BDN6641A* Ear Microphone for high noise levels (up to 105dB), Grey

This compact unit picks up the voice through bone vibrations in the ear canal. The miniature earpiece leaves the hands free and face unobscured when worn by rescue and hazard protection personnel, who still retain the ability for direct hearing and speaking. For personnel required to wear breathing apparatus, communications with protective masks are as clear as communications without. And its high speech clarity under noisy environments makes it ideal for high noise environments. Available in PTT or Voice Activated (VOX). Interface Module is required and must be ordered separately.

The pellet style earpiece allows the user to receive communication discreetly and is comfortable for extended wear.

TEMPLE TRANSDUCER

RMN4049A* Temple Transducer

0180305J46 Ear Microphone System and Temple Transducer Training CD-ROM

The temple transducer represents a significant achievement in headset design and functionality. It allows the user to receive audio without covering the ear. The receiver portion of this accessory rests on the temples and is capable of converting the receive audio from a two-way radio into sound vibration. The sound vibration is transmitted through the surrounding human tissue and bone directly into the inner ear where it is received by the user. It features an in-line PTT and noise canceling boom microphone. The temple transducer enhances communication and safety by not impairing the user's hearing of the external sound environment, such as machinery and equipment, warning, and fire alarms, the intercom, traffic and even casual conversations with co-workers.

A variety of Push-to-Talk options allow the user to customize the CommPort system for any application.

Audio Accessories

RECEIVE ONLY HEADSETS

RMN4056B Receive only dual muff headband style headset, provides 24 dB of noise

reduction for use with a 3.5mm threaded jack (can be plugged directly into

radio with BDN6676D adapter)

RMN4057B Receive only hardhat mounts easily to hardhats with slots and provides 22dB

of noise reduction, for use with all remote and public safety microphones with

3.5mm threaded jack (can be plugged into radio with BDN6676D adapter)

BDN6676D 3.5mm Jack Adapter with Quick Disconnect Latch

Receive only headsets are the right choice for high noise environments where users must hear information clearly, but seldom need to transmit. Dual muff headsets feature easily replaceable earseals filled with liquid and foam combination to provide excellent sealing and comfort.

LIGHTWEIGHT HEADSETS

NMN6245A Single Muff Lightweight Headset with In-Line Push-to-Talk Switch

(requires BDN6676D audio adapter)

NMN6246B Ultra-Light Headset with Boom Microphone and In-Line Push-to-Talk

Switch; Earbud style receiver (requires BDN6676D audio adapter)

NMN1020A Lightweight Headset with Boom Microphone to be worn on a helmet

or safety glasses; included NKN6498A adapter cable (requires

BDN6676D audio adapter)

NKN6498A Headset Adapter Cable for use with NMN1020A

Lightweight headsets allow for high clarity, hands-free, discreet two-way communication while adding comfort for extended wear in moderate noise environments. Requires BDN6676D audio adapter.

MEDIUM WEIGHT HEADSETS

NMN6258A Medium Weight Headset, over the head with In-Line PTT,

noise reduction rating = 24dB

NMN6259A Medium Weight Headset, behind the head with In-Line PTT,

noise reduction rating = 24dB

Medium Weight Headsets offer high-clarity sound with the additional hearing protection necessary for providing consistent, clear two-way radio communication in harsh, noisy situations.

HARDHAT MOUNT HEADSET WITH NOISE-CANCELLING BOOM MICROPHONE

RMN4051B Two-way Hardhat Mount Headset, Black

Ideal for two-way communication in high-noise environments; mounts easily to hardhats with slots, excellent noise reduction of 22dB. Easily replaceable earseals are tilled with liquid and foam combination to provide excellent sealing and comfort. 3-foot coiled cord assembly. Requires RKN4095A separate in-line PTT adapter cable. Hardhat not included.

Audio Accessories

HEAVY DUTY HEADSETS

BDN6645A Push-to-Talk Headset with Boom Microphone, requires adapter

cable BDN6673B; noise reduction rating = 24dB

BDN6635B Voice Activated (VOX) Headset with Boom Microphone, requires

adapter cable BDN6673B; noise reduction rating 24dB

BDN6636B* Voice Activated (VOX) Headset with Throat Microphone, requires

adapter cable BDN6673B; Noise reduction rating = 24dB

BDN6673B* Adapter Cable

Heavyduty headsets include Noise-cancelling Boom Microphones and can be worn with or without a hardhat. Headsets are for use in noise levels up to 125dB. The Push-to-Talk switch is located on the earcup. The VOX module is contained within the headset on voice activated units. Heavyduty headsets require Radio Adapter Cable BDN6673B, to be ordered separately.

RMN5015A

RACING HEADSET FOR TWO-WAY RADIOS

RMN5015A Racing Headset (adapter cable required)

BDN6673B Adapter Cable for RMN5015A

Motorola is the Official Wireless Equipment supplier of CART®, so whether your playing field is a racetrack, construction site or other challenging environment, you can count on this racing headset for superior comfort and dependable operation.

NOISE-CANCELING HEADSETS WITH BOOM MICROPHONE

RMN4052A Tactical Headband Style Headset, Grey; Noise Reduction Rating of

24dB—Requires RKN4095A Adapter Cable

RMN4053A Tactical Hardhat Mount Headset, Grey; Noise Reduction Rating of

22dB—Requires RKN4095A Adapter Cable

RKN4095A In-Line PTT Adapter Cable for use with RMN4051B, RMN4052A

and RMN4053A headsets

Ideal for two-way communication in extremely noisy environments. Dual-muff tactical headsets include two microphones on the outside of the earcups which reproduce the ambient sound back into the headset. Harmful sounds are suppressed to a safe level and low sounds are amplified up to 5 times the original level, but never more than 82dB. Includes on/off volume control on earcups and 3-foot coiled cord. Easily replaceable earseals are filled with liquid and foam combination to provide excellent sealing and comfort. Requires RKN4095A separate in-line PTT adapter cable. Hardhat not included.

Motorola Original Batteries are ruggedly designed for lasting durability and system tested with Motorola two-way radios to ensure optimum performance. We offer three chemistry alternatives as well as various capacity offerings, allowing the user to select the ideal battery for his or her needs. NiCd is best suited for extremetemperature operation and provides the maximum number of charge/discharge cycles. NiMH and Li-ion batteries offer extended duty cycles — providing more talk time per shift.

impres batteries, when used with an impres charger, provide automatic, adaptive reconditioning, end of life display, and other advanced features. Data is stored in the battery and communicated to the charger via a unique impres communication protocol which is designed to maximize talk time and optimize battery cycle life — all automatically.

Chargers

NTN1667A

SINGLE UNIT UNIVERSAL TRI-CHEMISTRY CHARGERS

NTN1667A Single Unit, universal tri-chem rapid charge, 110V NTN1668A Single Unit, universal tri-chem rapid charge, 220V NTN1669A Single Unit, universal tri-chem rapid charge, 240V

These chargers support Nickel Cadmium, Nickel Metal Hydride, and Lithium-ion batteries. They will rapid charge most batteries to 90% capacity in one to two hours and employ trickle and maintenance modes that ensure batteries are safely charged to their full capacity.

MULTI-UNIT CHARGERS

NTN1177E Multi-Unit, rapid rate, 110V

Ideal charger for multi-shift operation or centrally located equipment rooms where spare batteries are always required. Can accommodate up to 6 batteries at once.

Chargers

WPLN4111AR

impres™ SMART ENERGY SYSTEM

WPLN4111AR impres Single Unit Charger, 110V

The impres smart energy system ensures maximum talk-time and optimized battery cycle life through the use of its advanced charging algorithm and automatic reconditioning features. The smart energy system reconditions impres batteries when they need it, automatically, keeping them in peak condition. It's advanced conditioning features allow batteries to be safely left on the charger for extended periods of time without incurring the damaging heat build-up which can rob batteries of cycle life. In addition, batteries left on the charger are kept fully charged so they are always ready when you need them. The impres system reconditions batteries when they need it based on their usage pattern. Talk time and cycle life are optimized and the need for manual maintenance programs reduced or eliminated. This rapid-rate tri-chemistry charging system will also charge existing legacy batteries and supports multiple radio platforms including SABER, XTS, and HT 1000 series portables.

BATTERY MAINTENANCE SYSTEM^{PLUS} (BMS^{PLUS})

WPLN4079BR Six-Station, 110V AC, 50/60 Hz WPLN4080BR Six-Station, 230V AC, 50/60 Hz

WPPN4085AR BMSPIus Field Upgrade Kit for WPLN4079AR, WPLN4080AR,

and WPLN4081AR; allows these units to support Li-ion

battery chemistries

NDN4005B Three-Station, 110V AC, 50/60 Hz

(does not support Li-ion or 3-cell batteries)

Using interchangeable battery adapters (sold separately), the BMS^{**us} is capable of charging and discharging, analyzing, conditioning, and cycle testing batteries. It supports NiCd, NiMH, and Li-ion battery chemistries (Li-ion on six station models only) and tracks battery voltage and capacity (mAh). Its easy-to-use design supports hundreds of 2-way, cellular, and camcorder batteries. The BMS^{**us} offers a 3-year warranty and includes serial printer* port (RS-232).

*Compatible with the STAR Micronics SP200 series printers, available from any STAR Micronics distributor, and other printers with STAR emulation.

The MCC utilize negative pulse charging technology that will help extend battery life and enhance battery operation. It will safely condition and charge your specified NiCd and NiMH batteries in one to two hours. The MCC controls heat buildup due to its charging and termination algorithms and its maintenance mode allows batteries to be safely left on the charger for extended periods of time. And now there is an Instant Fault Detection (IFD) feature which detects faulty radio batteries in seconds, lettering users know the battery will not operate at peak performance. Optional accessories are available allowing these chargers to be used in both AC and DC environments providing optimal charging flexibility.

BATTERY OPTIMIZING SYSTEM II (BOS II)

WPLN4124AR BOS II, Four Station, 90-264V AC (US) Adapter Plates Required WPLN4125AR BOS II, Four Station, 90-264V AC (Euro/UK) Adapter Plates Required

With its speed, accuracy and versatility the Battery Optimizing System II (BOS II) provides powerful analyzing capabilities. Users can select from 12 resident pre-programmed service programs making it quick and easy to get up and running. And, because the BOS II is programmable, users can create custom programs to perform a wide variety of tasks specific to their needs. Features include:

- Quicktest[™] diagnostic feature measures a battery's state of health in approx. 2 to 5 minutes
- Interchangeable adapter plates available for most Motorola Two-way radio batteries
- Accommodates NiCd, NiMH, Li-ion, and SLA
- 100-watt universal power supply provides up to 4 Amps of power per station
- Ideal for service organizations, large fleet customers, and public safety users who rely on their battery performance

With increased power, more sophisticated programming options, and easier to use navigation paths, optimizing your batteries was never easier or faster.

BOS II ADAPTER

RLN4884B

TRAVEL CHARGER RLN4884B Travel Charger

A great traveling companion that ensures constant communication while on the road. Its small compact design allows the radio to be used while rapid charging in the charger base. Unit includes a voltage regulated cigarette lighter adapter, custom charger base, mounting bracket, and coil cord. Ideal for public safety, utility, and construction markets.

Chargers

VEHICULAR CHARGER

NTN9176B Vehicular Charger

This vehicular charger is a 12V DC unit that supports NiCd, NiMH, and Li-ion batteries for XTS3000, XTS3500 and XTS5000. A microprocessor senses the type of battery installed and controls the rate of charge accordingly. Batteries are charged at a rapid rate until fully charged at which point the unit reverts to a trickle charge. Batteries can be charged while on the radio or stand alone. The radio can be operated while in the charger and this unit is PAC RT compatible. The vehicular charger consists of a console, mounting hardware, and supply cable.

Adding accessories to the vehicular adapters requires one of the following two kits:

NTN8941A XTVA Data Cable Kit NTN8943A XTVA Accessory Adapter Kit

Allows customers to adapt XTS3000, XTS3500 or XTS5000 portables for mobile operation. Provides in-vehicle rapid and trickle charging for Nickel Cadmium (NiCd), Nickel Metal Hydride (NiMH), and Lithium Ion (Li-ion) batteries. These units offer guick radio release and dead battery operation and are powered by attaching their supply cable to the 12V battery inside a police car, utility truck or other vehicle. Connectors are provided for the vehicle antenna, mobile microphone and optional amplified loudspeaker (HSN1000B). There is also a general interface connector for additional accessories. A color LED indicates battery recharge status. For XTVA operation, a microphone, and RF Switch (NTN8327A) are required. The required external antenna, mobile microphone, and optional loudspeaker allow for operation of the portable radio that is similar to that of a mobile.

Antennas

FLEXIBLE WHIP ANTENNAS

8505241U05 Flexible Whip, 403-520 MHz, 6" 8505241U03 Flexible Whip, 806-869 MHz, 7"

8505241U11 Flexible Whip, Dual Band, 764-870 MHz, 7"

Antenna has a one-piece finish and steel core for optimal strength and better radiation characteristics. Provides more comfort when radio is worn on the belt.

8505241U05

HELICAL ANTENNAS

8505644V01 Helical, 136-151 MHz, 6" 8505644V02 Helical, 151-162 MHz, 6" 8505644V03 Helical, 162-174 MHz, 6" 8505644V04 Helical, 403-435 MHz, 3" 8505644V05 Helical, 435-470 MHz, 3" 8505644V06 Helical, 470-520 MHz, 3"

Helical antennas are sturdy and dependable for years of failsafe communication. Each antenna is designed and built to quality standards. The skirt at the base of the connector helps to seal out damaging elements. Connector is made of plated brass material for long life.

Antennas

WIDEBAND ANTENNA

8505518V01 Wideband, 136-174 MHz, 6"

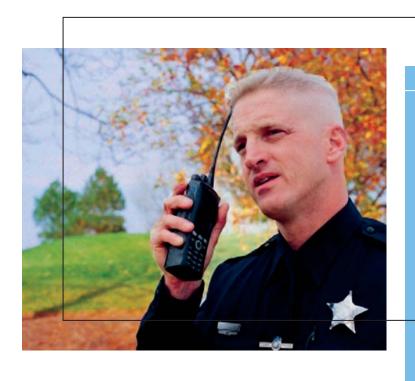

Wideband antenna is ideal when radio is used in different frequencies since one antenna will cover all ranges.

STUBBY ANTENNA

8505241U06 Stubby, 806-941 MHz, 4"

This quarterwave stubby antenna is ideal when radio is worn on the belt because the short antenna is non-obtrusive. This is a broad band and antenna that can be used for both 800MHz and 900MHz applications.

Audio Accessories

TEMPLE TRANSDUCER

RMN4049A* Temple Transducer
0180305J46 Ear Microphone System and Temple Transducer CD-ROM

The Temple Transducer represents a significant achievement in headset design and functionality. It allows the user to receive audio without covering the ear. The receiver portion of this accessory rests on the temples and is capable of converting the receive audio from a two-way radio into sound vibration. The sound vibration is transmitted through the surrounding human tissue and bone directly into the inner ear where it is received by the user. It features an In-line PTT and noise-cancelling boom microphone. The Temple Transducer enhances communication and safety by not impairing the user's hearing of the external sound environment, such as machinery and equipment, warning, and fire alarms, the intercom, traffic, and even casual conversations with co-workers.

COMPLETELY DISCREET EARPIECE

RLN4922A Completely Discreet Earpiece Kit; includes Wireless Earpiece,

inductive Neckloop, 6 spare Batteries and 5 spare Ear Wax Guards

RLN4919A Ear Wax Guards, 5 per pack RNN4005A 1.4V Battery, 6 per pack

Remain discreetly in touch with this miniaturized receiver. All messages received through the user's two-way radio are inductively relayed to the wireless Earpiece in the user's ear. Inductive Neckloop is easily hidden under the user's clothing for covert operations. Neckloop attaches to the user's Motorola Surveillance Kit providing completely discreet two-way communications. Security operatives, public safety officials, and private investigators can communicate with ease without any visible equipment. Small as it is, it offers a full range of audio functions including automatic squelch, automatic gain control and noise filtering. Must be used in conjunction with a Motorola surveillance kit. Just remove the earpiece on any standard 2- or 3-wire surveillance kit and plug in the Neckloop for completely discreet communication.

INTERFACE MODULE FOR EMS

BDN6708B* Push-to-Talk Interface Module

BDN6671B* Push-to-Talk or Voice-Activated Interface Module

This compact unit picks up the voice through bone vibrations in the ear canal. The miniature earpiece leaves the hands free and face unobscured when worn by rescue and hazard protection personnel, who still retain the ability for direct hearing and speaking. For personnel required to wear breathing apparatus, communications with protective masks are as clear as communications without. And its high speech clarity under noisy environments makes it ideal for high noise environments. Available in PTT or Voice Activated (VOX). Interface Module is required and must be ordered separately.

TEMPLE TRANSDUCER

RMN4049A* Temple Transducer

0180305J46 Ear Microphone System and Temple Transducer CD ROM

The Temple Transducer represents a significant achievement in headset design and functionality. It allows the user to receive audio without covering the ear. The receiver portion of this accessory rests on the temples and is capable of converting the receive audio from a two-way radio into sound vibration. The sound vibration is transmitted through the surrounding human tissue and bone directly into the inner ear where it is received by the user. It features an In-line PTT and noise canceling boom microphone. The temple transducer enhances communication and safety by not impairing the user's hearing of the external sound environment, such as machinery and equipment, warning, and fire alarms, the intercom, traffic and even casual conversations with co-workers.

(included in RLN4814A)

The MCC utilize negative pulse charging technology that will help extend battery life and enhance battery operation. It will safely condition and charge your NiCd and NiMH batteries in one to two hours. The MCC controls heat buildup due to its charging and termination algorithms and its maintenance mode allows batteries to be safely left on the charger for extended periods of time. And now there is an Instant Fault Detection (IFD) feature which detects faulty radio batteries in seconds, lettering users know the battery will not operate at peak performance. Optional accessories are available allowing these chargers to be used in both AC and DC environments providing optimal charging flexibility.

WPLN4111AR impres Smart Energy System Charger

The impres Smart Energy System ensures maximum talk-time and optimized battery cycle life through the use of its advanced charging algorithm and automatic reconditioning features. The Smart Energy System reconditions impres batteries when they need it, automatically, keeping them in peak condition. Its advanced conditioning features allow batteries to be safely left on the charger for extended periods of time without incurring the damaging heat build-up which can rob batteries of cycle life. In addition, batteries left on the charger are kept fully charged so they are always ready when you need them. The impres System reconditions batteries when they need it based on their usage pattern. Talk time and cycle life are optimized and the need for manual maintenance programs reduced or eliminated. This rapid-rate trichemistry charging system will also charge existing legacy batteries and supports multiple radio platforms including Saber, XTS, and HT1000 series portables.

impres™ MULTI-UNIT CHARGER

WPLN4108BR impres™ Multi-unit Charger, 110V NLN7967A Wall Mount for Multi-unit Charger

impres™ MULTI-UNIT CHARGER WITH CHARGER DISPLAY MODULES

WPLN4130A impres™ Multi-unit Charger with Charger Display Modules, 110V NLN7967A Wall Mount for Multi-unit Charger

Charger Display Modules provide powerful "real time" analyzing information for impres batteries, including current charge status; current battery mAh; percent rated capacity, battery voltage; battery kit number; battery serial number; battery chemistry; time remaining to charge complete (for NiCd and NiMH); forecast number of cycles to next reconditioning; and more.

Compatible with HT1000, JT1000, MTX8000, MTX9000

Chargers

impres™ INDIVIDUAL CHARGER DISPLAY MODULE

RLN5382A Charger Display Module for impres™ Multi-Unit Charger Version 1.3 or Later

These modules are designed to be retrofittable with the standard impres Multi-Unit Charger WPLN4108BR. Up to six modules can be purchased per charger, one for each charging pocket. Includes detailed installation instructions. Note: The version number is referenced on the label located on the bottom of the impres Multi-Unit charger. If no version is shown, it is version 1.2 or earlier. For example, version 1.3 will appear as V1.30.

RLN5591A Charger Display Module for impres Multi-Unit Charger Version 1.2 or earlier

Compatible with Multi-Unit Charger version 1.2 or earlier. These modules require a software flash update from the Radio Support Center. Display modules added at the Radio Support Center. Details included with each shipment. Note: The version number is referenced on the label located on the bottom of the impres™ Multi-Unit charger. If no version is shown, it is version 1.2 or earlier. For example, version 1.2 will appear as V1.20.

This CD provides an interactive guide to the impres[™] Charging System, and provides benefit statements as well as application examples.

RLN5382A

impres™BUNDLE PACKS

RLN5265A impres Charger with two HNN9029AR Batteries
RLN5266A impres Charger with two HNN9028AR Batteries
RLN5439B impres Multi-unit Charger with six HNN9029AR Batteries

RLN5440B impres Multi-unit Charger with six HNN9028AR Batteries

Provide significant savings on the impres products by bundling a charger and two or six batteries together as a Smart Energy System Package.

Compatible with HT1000, JT1000, MTX8000, MTX9000

Antennas

ANTENNAS

Injection molded for rugged environments. Each antenna is tested and tuned to give maximum power and performance.

FLEXIBLE WHIP ANTENNAS

8505241U05 Flexible Whip, 403-520 MHz, 6" 8505241U03 Flexible Whip, 806-869 MHz, 7" 8505241U04 Flexible Whip, 896-941 MHz, 7"

Antenna has a one-piece finish and steel core for optimal strength and better radiation characteristics. Provides more comfort when radio is worn on the belt.

HELICAL ANTENNAS

| 8505644V01 | Helical, 136-151 MHz, 6" |
|-------------------|--------------------------|
| 8505644V02 | Helical, 151-162 MHz, 6" |
| 8505644V03 | Helical, 162-174 MHz, 6" |
| <i>8505644V04</i> | Helical, 403-435 MHz, 3" |
| <i>8505644V05</i> | Helical, 435-470 MHz, 3" |
| <i>8505644V06</i> | Helical, 470-520 MHz, 3" |

Helical Antennas are sturdy and dependable for years of failsafe communication. Each Antenna is designed and built to quality standards. The skirt at the base of the connector helps to seal out damaging elements. Connector is made of plated brass material for long life.

Compatible with HT1000, JT1000, MTX8000, MTX9000

Antennas

DIPOLE ANTENNAS

NAF4000B Dipole, 806-869 MHz, 8" 8505884R02 Dipole, 896-941 MHz, 8"

Dipole-molded Antennas are injection molded in lasting polyurethane. The wide skirt at the bottom of the connector protects against damaging environmental elements. The Dipole Antenna is ideal when strong and solid signal clarity is demanded.

WIDEBAND ANTENNA

8505518V01 Wideband, 136-174 MHz, 6"

Wideband Antenna is ideal when radio is used in different frequencies since one antenna will cover all ranges.

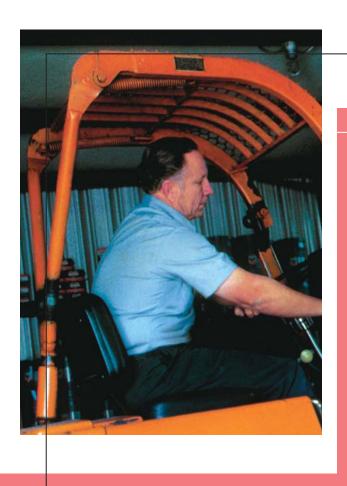

STUBBY ANTENNA

RAD4194A Stubby, 150-162 MHz, 3.55" 8505241U06 Stubby, 806-941 MHz, 4"

This quarterwave Stubby Antenna is ideal when radio is worn on the belt because the short antenna is non-obtrusive. This is a broad band and antenna that can be used for both 800MHz and 900MHz applications.

LTS 2000®

Capable of 10 systems, 90 modes with 10 Conventional channels

- Mil Std. 810 Specs

Audio Accessories

REMOTE SPEAKER MICROPHONE (RSM)

HMN9030A Remote Speaker Microphone with Coil Cord and Swivel Clip

HMN9094A Replacement Coil Cord for HMN9030A

Allows you to talk and listen without removing the radio from the belt, case or charger. Ideal for high noise level environments. This water resistant microphone includes: 6.0' Coiled Cord Assembly, and Swivel Clip.

RSM ACCESSORIES

EPAULET STRAP

RLN4294A Epaulet Strap, Velcro RLN4295A Epaulet Strap with clip

Black leather Epaulet Strap secures Remote Speaker Microphone to epaulet straps on shirt or jacket and accommodates back clip in leather cut-outs. Snap closure secures Remote Speaker Microphone cord to allow reliable communications in hostile environments.

SURVEILLANCE KITS

RECEIVE ONLY COMFORT EARPIECE (1-WIRE)

RLN5314A Beige RLN5313A Black

COMFORT EARPIECE WITH MICROPHONE AND PUSH-TO-TALK COMBINED (2-WIRE)

RLN5311A Beige RLN5312A Black

These kits include a comfort earpiece with a rubber eartip and clear comfortable acoustic tube. Users hear tranmisssions clearly, while the clear tube provides a discreet appearance. The above surveillance accessories require the BDN6676D (3.5mm threaded adapter jack) that attaches to the radio, unless being used with speaker microphone.

Audio Accessories

NTN8370A

NOISE KIT

NTN8370A Extreme Noise Kit, includes 2 foam Earplugs for loud environments,

provides 24dB of noise reduction

NTN8371A Low Noise Kit, includes rubber Eartip for low noise environments,

does not provide hearing reduction

5080384F72 Replacement Foam Plugs; pack of 50 (for use with NTN8370A)

5080371E73 Replacement Standard Beige Rubber Eartips

(for use with NTN8371A), pack of 25

5080371E75 Replacement Standard Black Rubber Eartips

(for use with NTN8371A), pack of 25

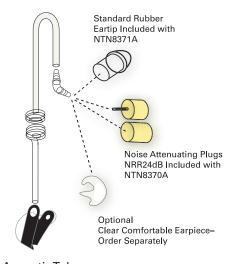

This lightweight translucent tube attaches to Motorola surveillance accessories to provide additional flexibility and comfort. Clothing clip prevents the accessory from being pulled from the ear due to body movement or head rotation.

CLEAR COMFORTABLE EARPIECE

RLN4760A Small Custom Earpiece, right ear
RLN4763A Small Custom Earpiece, left ear
RLN4761A Medium Custom Earpiece, right ear
RLN4764A Medium Custom Earpiece, left ear
RLN4762A Large Custom Earpiece, left ear
Large Custom Earpiece, left ear

The Clear Comfortable earpiece forms to the inside of your ear and is perfect for low noise environments. Compatible with the NTN8371A, Clear Acoustic Tube Assembly and surveillance kits (1-, 2-, and 3-wire). This Earpiece is made of easy-to-clean chemically inert, hypoallergenic material. There are three items needed to make this product work:

- Clear Comfortable Earpiece
- Clear Acoustic Tube Assembly (NTN8371A), and
- Surveillance Kits

Acoustic Tube with Earphone

Audio Accessories

COMPLETELY DISCREET EARPIECE

RLN4922A Completely Discreet Earpiece Kit; includes Wireless Earpiece,

Inductive Neckloop, 6 spare Batteries and 5 spare Ear Wax Guards

RLN4919A Ear Wax Guards, 5 per pack RNN4005A 1.4v Battery, 6 per pack

Remain discreetly in touch with this miniaturized receiver. All messages received through the user's two-way radio are inductively relayed to the wireless earpiece in the user's ear. Inductive Neckloop is easily hidden under the user's clothing for covert operations. Neckloop attaches to the user's Motorola surveillance kit, providing completely discreet two-way communications. Security operatives, public safety officials, and private investigators can communicate with ease without any visible equipment. Small as it is, it offers a full range of audio functions including automatic squelch, automatic gain control and noise filtering. Must be used in conjunction with a Motorola surveillance kit. Just remove the earpiece on any standard 2 or 3-wire surveillance kit and plug in the Neckloop for completely discreet communication.

FLEXIBLE EAR RECEIVER

BDN6720A Flexible Ear Receiver

7580372E11 Replacement Foam Ear Cushion

This receive-only Earpiece contains a flexible earloop and speaker which rests external to the ear.

LIGHTWEIGHT HEADSET

RMN4016A* Lightweight Single Speaker Headset with Swivel Boom Microphone

for left or right ear operation and In-line PTT button

REX4648A Replacement Foam Earpad and Windscreen for RMN4016A

Lightweight Headsets allow for high clarity, hands free, discreet two-way communications while adding comfort necessary for extended wear in moderate noise environments.

*Intrinsically Safe

Audio Accessories

BDN6646C

EAR MICROPHONE SYSTEM (EMS)

BDN6646C* Ear Microphone for standard noise levels (up to 95dB),

with PTT Interface

BDN6706B* Ear Microphone for standard noise levels (up to 95dB),

with Voice Activated and PTT Interface

This compact unit picks up the voice through bone vibrations in the ear canal. The miniature earpiece leaves the hands free and face unobscured when worn by rescue and hazard protection personnel, who still retain the ability for direct hearing and speaking. For personnel required to wear breathing apparatus, communications with protective masks are as clear as communications without. And its high speech clarity under noisy environments makes it ideal for high noise environments. Available in PTT or Voice Activated (VOX).

RLN4814A Vehicular Mounting Bracket and hard wire cable for Single-unit

Motorola Conditioning Charger

The MCC utilize negative pulse charging technology that will help extend battery life and enhance battery operation. It will safely condition and charge your specified NiCd and NiMH batteries in approximately an hour. The MCC controls heat buildup due to its charging and termination algorithms and its maintenance mode allows batteries to be safely left on the charger for extended periods of time. And now there is an Instant Fault Detection (IFD) feature which detects faulty radio batteries in seconds, lettering users know the battery will not operate at peak performance. Optional accessories are available allowing these chargers to be used in both AC and DC environments providing optimal charging flexibility.

WPLN4125AR BOS II, Four Station, 90-264V AC (Euro/UK);

Adapter Plates required

With its speed, accuracy, and versatility, the Battery Optimizing System II. (BOS II) provides powerful analyzing capabilities. users can select from 12 resident pre-programmed service programs, making it quick and easy to get up and running. and, because the BOS II is programmable, users can create custom programs to perform a wide variety of tasks specific to their needs. Features include:

- Quicktest™ diagnostic feature measures a battery's state of health in approximately
 2 to 5 minutes
- Interchangeable Adapter Plates available for most Motorola 2-way radio batteries
- · Accommodates NiCd, NiMH, Li-ion and SLA
- 100-watt universal power supply provides up to 4 Amps of power per station
- Ideal for service organizations, large fleet customers, and public safety users who
 rely on their battery performance

With increased power, more sophisticated programming options, and easier to use navigation paths, optimizing your batteries was never easier or faster.

CUSTOMER SERVICE INFORMATION

CUSTOMER SERVICE

If questions arise on back orders, order/billing discrepancies, or return authorizations call:

In the U.S. and Canada:

1-800-422-4210 (7 a.m. to 7 p.m. CST/CDT)

Outside the U.S.

1-847-538-8023 (8 a.m. to 4:30 p.m. CST/CDT)

or Fax: 1-847-576-3023 U.S. Federal Government

1-800-826-1913 (8:30 a.m. to 5 p.m. EST)

ORDER DISCREPANCIES/RETURNS

If questions arise on order discrepancies and for return authorization, call:

In the U.S.: **1-800-422-4210**Outside the U.S.: **847-538-8023** or

Fax: 847-576-3023

U.S. Federal Government: 1-800-826-1913

Any order discrepancy must be brought to our attention within ten (10) days of shipment, sixty (60) days on orders outside the U.S. Authorization must be acquired from RPSD prior to return of any material.

Returns from outside the U.S. require form ERA (Equipment Return Authorization) which must be obtained before any return of goods.

The authorization number must be visible on the outside of your package. Mark all packages "Attn: Return Goods". Motorola RPSD offers free freight on returns by providing prepaid and pre-addressed labels, which are e-mailed, faxed or mailed at the time of the ERA request.

A tracking number is placed on the label for reference to each individual ERA request. It is important to maintain records of the tracking number until credit has been issued by Motorola.

Except for crystals and other specific items Motorola Radio Products and Services Services Division will accept the return of new and unused Motorola products in their original packaging material within 45 calendar days of the original shipment of the product. After 45 calendar days, a 20% restocking fee will be assessed. Restocking fees for tower hardware, site equipment and test stations will be applied per the individual supplier's policy as set forth in the suppliers' stated terms and conditions accompanying product packing slip, and products ordered to a specific frequency or code may not be returnable. Note: the 20% restocking fee applies to returns of new and unused computer and computer peripheral products, and no returns of computers or peripherals will be accepted beyond 45 days. After 90 days, no returns of new, unused equipment (tower, site and test equipment included) will be accepted by Motorola.

DEFINITIONS

"Motorola" shall mean the Radio Products and Services Division of the Commercial, Government and Industrial Solutions Sector of Motorola, Inc. "Customer" shall mean the customer who purchases Products from Motorola. "Products" shall collectively mean the Replacement Parts, Batteries, Accessories, Test & Site Equipment, and Software ordered by the Customer from the Motorola Customer Care Services Division's then current Price and Availability List ("Price and Availability List").

CONFIRMING ORDERS

If Customer chooses to send in a confirming order, the confirming order should be clearly marked "confirming". Motorola is not responsible for duplicate shipments sent out if the reason for the duplicate shipment was that a confirming order was not marked "confirming". If a confirming order differs in any way from the original order, the original order takes precedence.

PRICING AND TAXES

The prices are located in the Price and Availability List and are subject to change without notice. Up-to-date Pricing and Availability can be found at www.motorola.com/businessonline. Orders will be charged at prices in effect the day an order is entered. Special Pricing may be available, call your local account manager to determine applicability. Programs, promotions, quoted or contract prices supersede the prices in the then current Price and Availability List, provided the quotation or the contract is current at the time the order is placed. Customers will be invoiced upon shipment. The prices set forth are exclusive of any amount for Federal, State and/or Local excise, sales, use, property, retailer's occupation or similar taxes. If any such excluded tax is determined to be applicable or if Motorola is required to pay any such tax, the prices set forth in the then current Price and Availability List shall be increased by the amount of such tax and any interest or penalty incurred, and Customer shall pay to Motorola the full amount of any such increase no later than ten (10) days after receipt of an invoice therefor.

SHIPPING, DELIVERY, TITLE AND SECURITY

Delivery, Title and Security Shipping and handling charges shall be paid by the Customer. Customer agrees to pay such amount quoted without regard to the actual charges applicable at the time of shipment. Motorola will ship only to Customer's facility or the facility of one of Customer's affiliates. Motorola will not drop ship to third parties at the request of a Customer. Unless otherwise directed by the Customer, all shipments will be routed via United Parcel Service or common carrier depending on weight and size.

Emergency shipments will be routed by air or by the fastest method with consideration given to weight and size limitations and will be subject to an additional shipping fee. Shipments outside of the U.S. will be routed by air. Unless otherwise agreed to by Motorola, all deliveries are F.O.B. Factory shipping facility(ies) or F.O.B destinations

for state and local government entities and title and risk of loss to Products sold shall pass to Customer at the F.O.B. point. Shipping or delivery dates are best estimates only.

Motorola reserves the right to make deliveries in installments and these terms and conditions shall be severable as to such installments. Delivery delay or default of any installment shall not relieve Customer of its obligation to accept and pay for remaining deliveries. Claims for shipment shortages shall be deemed waived unless presented to Motorola in writing within forty-five (45) days of delivery of each shipment. Customer hereby grants to Motorola as security for all of Customer's obligations to Motorola, of any kind whatsoever, now or hereafter arising from this agreement or any other agreement with Motorola, a first priority security interest in all Products held in inventory or used as equipment by Customer, together with all contract rights, accounts, chattel paper and general intangibles relating thereto and all proceeds resulting therefrom.

Upon request, Customer agrees to cooperate in whatever manner necessary to assist Motorola in perfection of said security interest. Furthermore, Customer hereby irrevocably appoints Motorola as its attorney-in-fact to take any action and to execute any instrument which Motorola may deem necessary or advisable to accomplish the foregoing. Such power of attorney is coupled with an interest. Motorola has no obligation for payments of any applicable foreign import duties.

PAYMENT

The Customer shall make net payment to Motorola in accordance with the terms stated herein by mail to Motorola at P.O. Box 93042, Chicago, Illinois 60673-3042 or at such other place as Motorola may designate in writing or as reflected on an invoice.

Payment shall be made in ten (10) days after the date of invoice for each product, accessory, or other charge, unless otherwise agreed to in writing. Service charges at the maximum rate permitted by applicable law may be invoiced on accounts more than thirty (30) days past due and shall be due and payable upon receipt of invoice.

All payments made by Customer to Motorola in connection with this agreement or any other agreement with Motorola shall applied by Motorola, in its sole discretion, to such obligations or liabilities (whether arising under this agreement or any other agreement with Motorola) as Motorola shall direct.

PATENT, COPYRIGHT AND TRADEMARKS

A. INDEMNIFICATION

Motorola agrees to defend, at its expense, any suits against Customer based upon a claim that any Motorola manufactured Products furnished hereunder directly infringe a U.S. patent or copyright and to pay costs and damages finally awarded in any such suit, provided that Motorola is notified promptly in writing of the suit and at Motorola's request and at its expense is given control of said suit and all requested assistance for defense of same, including all appeals thereof. If the use or sale of any such Product(s) furnished hereunder is enjoined as a result of such suit, Motorola, at its option and at no expense to Customer, shall obtain for

Customer the right to use or sell such Product(s) or shall substitute an equivalent Product reasonably acceptable to Customer and extend this indemnity thereto or shall accept the return of such Product(s) and reimburse Customer the purchase price therefor, less a reasonable charge for reasonable wear and tear. This indemnity does not extend to any suit based upon any infringement or alleged infringement of any patent or copyright by the combination of any such Product(s) furnished hereunder and other elements not furnished by Motorola nor does it extend to any Product(s) that are modified, changed or altered. The foregoing states the entire liability of Motorola for patent or copyright infringement.

IN NO EVENT SHALL MOTOROLA BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM INFRINGEMENT OR ALLEGED INFRINGEMENT OF PATENTS OR COPYRIGHTS.

B. COPYRIGHTS AND MASK WORKS

Works Laws in the United States and other countries preserve for Motorola certain exclusive rights, in the Motorola Software, mask works and other works of authorship furnished hereunder including without limitation the exclusive rights to prepare works derived from same, reproduce same in copies and distribute copies of same.

C. LOGOS AND TRADEMARKS

- **1)** The Products shipped under the terms and conditions hereof will carry Motorola's logo or such other logo as expressly agreed to by Motorola.
- 2) In order that Motorola may protect and preserve its trademarks, trade names, corporate slogans, corporate logo, goodwill and Product designations, Customer, without the express written consent of Motorola, shall have no right to use any such marks, names, slogans or designations of Motorola in the sale, lease or advertising of any Products or on any Product, Product container, component part, business forms, sales, advertising and promotional materials or other business supplies or materials, whether in writing, orally or otherwise.

D. LICENSE DISCLAIMER

Except for the right to use the Motorola Software and Product for the purposes provided herein which arises by operation of law and except as expressly provided herein, nothing contained herein, or otherwise shall be deemed to grant to Customer either directly or by implication, estoppel or otherwise, any license or right under any patents, copyrights, trademarks or trade secrets of Motorola or any third party.

EXCUSABLE DELAY

In addition to other limitations on liability set forth herein, Motorola shall not be liable for any delay or failure to perform due to any cause beyond its control. Causes include, but are not limited to, strikes, acts of God, acts of the Customer, interruptions of transportation or inability to obtain necessary labor, materials or facilities, default of any supplier, or delays in FCC frequency authorization or license grant. In the event Motorola is unable to wholly or partially perform because of any cause beyond its control, Motorola may terminate any order without any liability to Customer.

LIMITATIONS

A. EXCEPT FOR PERSONAL INJURY AND EXCEPT AS PROVIDED FOR IN THE SECTION "PATENT, COPYRIGHT AND TRADEMARKS", MOTOROLA'S TOTAL LIABILITY ARISING OUT OF OR RELATED TO PURCHASE OF PRODUCTS, WHETHER FOR BREACH OF CONTRACT, WARRANTY, MOTOROLA'S NEGLIGENCE, STRICT LIABILITY IN TORT OR OTHERWISE, IS LIMITED TO THE PRICE OF THE PARTICULAR PRODUCTS SOLD HEREUNDER WITH RESPECT TO WHICH LOSSES OR DAMAGES ARE CLAIMED. CUSTOMER'S SOLE REMEDY IS TO REQUEST MOTOROLA AT MOTOROLA'S OPTION TO EITHER REFUND THE PURCHASE PRICE OR REPAIR OR REPLACE PRODUCTS THAT ARE NOT AS WARRANTED. IN NO EVENT, WHETHER FOR BREACH OF

CONTRACT, WARRANTY, MOTOROLA'S NEGLIGENCE, STRICT LIABILITY IN TORT, OR OTHERWISE, WILL MOTOROLA BE LIABLE FOR INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, FRUSTRATION OF ECONOMIC OR BUSINESS EXPECTATIONS, LOSS OF PROFITS, LOSS OF DATA, COST OF CAPITAL, COST OF SUBSTITUTE PRODUCT(S), FACILITIES OR SERVICES, DOWNTIME COST OR ANY CLAIM AGAINST CUSTOMER BY ANY OTHER PARTY.

- **B.**IT IS FURTHER UNDERSTOOD THAT MOTOROLA IS NOT AN INSURER AND THAT CUSTOMER WILL OBTAIN ALL INSURANCE, IF ANY, THAT IS DESIRED AND THAT MOTOROLA DOES NOT REPRESENT OR WARRANT THAT MOTOROLA PRODUCTS WILL AVERT OR PREVENT OCCURRENCES, OR THE CONSEQUENCES THEREFROM, WHICH ARE MONITORED, DETECTED OR CONTROLLED WITH USE OF THE PRODUCTS.
- **C.** TIME TO SUE. EXCEPT FOR MONEY DUE UPON AN OPEN ACCOUNT, NO ACTION SHALL BE BROUGHT FOR ANY BREACH OF A CONTRACT TO PURCHASE PRODUCTS MORE THAN TWO (2) YEARS AFTER THE ACCRUAL OF SUCH CAUSE OF ACTION EXCEPT WHERE A SHORTER LIMITATION PERIOD IS PROVIDED BY APPLICABLE LAW.
- **D.** EXCEPT FOR MONEY DUE UPON AN OPEN ACCOUNT, NO ACTION SHALL BE BROUGHT FOR ANY BREACH OF A CONTRACT TO PURCHASE PRODUCTS MORE THAN TWO (2) YEARS AFTER THE ACCRUAL OF SUCH CAUSE OF ACTION EXCEPT WHERE A SHORTER LIMITATION PERIOD IS PROVIDED BY APPLICABLE LAW.
- **E.** Warranties. In another section of the price and availability list, motorola has provided customer with its product warranty and, if applicable, its software license, which warranty and license, to the extent applicable, are incorporated into and made a part of these terms and conditions. This warranty is given in lieu of all other warranties, express or implied which are specifically excluded, including, without limitation, implied warranties of merchantability and fitness for a particular purpose. Customer hereby acknowledges receipt of such warranties and license.

Terms and Conditions

PRODUCT EQUIPMENT COMPATIBILITY

Motorola agrees that the Product will perform in accordance with the specifications stated in Motorola's catalogue sheets. This does not extend to the performance of the Product as a part of a larger system generally nor specifically to the Product in combination with products, elements or components not supplied by Motorola.

SALES TO GOVERNMENTAL ENTITIES

A. Third Party Sales. In the event that Customer elects to provide Products or services to a Governmental entity, or to a prime contractor selling to a Governmental entity, Customer does so solely at its own option and risk and agrees not to obligate Motorola as a subcontractor or otherwise to such Governmental entity. Customer remains solely and exclusively responsible for compliance with all laws governing such sales to such an entity. Further, Motorola makes no representations, certifications, or warranties whatsoever with respect to the ability of its goods, services, or prices to satisfy any such laws. The term "Governmental entity" as used above includes any U.S. Federal, State, or Local Government agency or instrumentality as well as any Foreign (non U.S.) Government agency or instrumentality.

B. Sales to Governments. In the event that Customer is a state or local government agency in the United States or instrumentality, a foreign (non U.S.) government agency or instrumentality, or a contractor to such an entity, Customer agrees to promptly advise Motorola of any special government terms or conditions of sale and/or of any state and/or local law, regulation or ordinance that may be applicable to this sale. Customer's offer is conditioned upon such notice and upon Motorola's acceptance, in writing, of any such special requirements.

ACCESS TO RECORDS AND FACILITIES

Motorola reserves the right to control access to its facilities and records along with those of its subcontractors and suppliers. Such control must include the right to deny access to those facilities and records deemed to be confidential or proprietary.

EXPORT CONTROL PROVISION

Customer must comply with all applicable export and reexport laws and regulations of Customer's country and the U.S.A. The exporting and reexporting of Products from the U.S.A. is subject to the U.S. Department of State Munitions Control Regulations. Certain of Motorola's communications products are controlled products and require special licensing. Specifically, but without limitation, Customer agrees that it will not resell or reexport any Motorola parts or associated software or technical data in any form without obtaining appropriate export or reexport licenses from the United States Government or other applicable licensing body. If, at the time or times of Motorola's performance hereunder, a validated export license is required to lawfully export any parts or associated technical data or software, then the issuance of such license to Motorola constitutes a condition precedent to Motorola's obligations hereunder.

Terms and Conditions

Additional Terms and Conditions for International Transactions Customer bears all charges of whatever nature imposed at the time of or after delivery of the Products to the carrier at the F.O.B. point, including, but not limited to, freight, taxes, consular fees and custom duties. After delivery to the carrier at the F.O.B. point, Customer bears all risk of loss or damage to the Products.

Unless otherwise agreed to in writing by Motorola, payment to Motorola shall be in U.S. currency available in Schaumburg, Illinois, U.S.A., in advance of shipment or by a confirmed, irrevocable letter of credit acceptable to Motorola. Customer shall comply with all applicable export laws and regulations of Customer's country and the U.S.A. Specifically, but without limitation, Customer agrees that it will not resell or reexport any Motorola Products or associated software or technical data in any form without obtaining appropriate export or reexport licenses from the United States Government or other applicable licensing body.

If, at the time or times of Motorola's performance hereunder, a validated export license is required to lawfully export any parts or associated technical data or software, then the issuance of such license to Motorola shall constitute a condition precedent to Motorola's obligations hereunder. Customer shall effect or secure at its own cost all governmental permits, licenses and registrations required in connection with the importation into and any resale of the goods in Customer's country and comply with all other applicable laws and regulations. Motorola will not do business with any customer where Motorola reasonably knows or suspects such customer has engaged in legally questionable or unethical practices. Customer agrees to comply with this Motorola policy.

HEREUNDER SHALL BE GOVERNED BY AND INTERPRETED ACCORDING TO THE LAWS OF THE STATE OF ILLINOIS, U.S.A. EXCLUDING APPLICATION OF THE U.N. CONVENTION ON CONTRACTS FOR THE INTERNATIONAL SALES OF GOODS (1980).

GENERAL

- **(A)** Customer acknowledges that is has read and understands the terms and conditions herein and agrees to be bound by them, that it is the complete and conclusive statement of the parties and understanding between the parties relating to the subject matter hereof and all understanding and agreements, oral and written, heretofore made between Motorola and Customer, are merged in this agreement which alone fully and completely expresses their agreement.
- **(B)** No modification of or additions to these terms and conditions shall be binding upon Motorola unless such modification is in writing and signed by an officer of Motorola.
- **(C)** If any term or provision of these terms and conditions is held by a court or other tribunal to be invalid, void, unenforceable, then that term or provision shall be inoperative and insofar as it is in conflict with law, but the remaining terms and provisions shall nevertheless continue in full force and effect and the rights and obligations of the parties shall be construed and enforced as if these terms and conditions did not contain the particular term or provision held to be invalid, void or unenforceable.

- **(D)** Section and paragraph headings used herein are for convenience only and are not to be deemed or construed to be part of these terms and conditions.
- **(E)** The failure of Motorola to insist, in any one or more instances, upon the performance of any of the terms, covenant or conditions of these terms and conditions, or to exercise any right herein, shall not be construed as a waiver or relinquishment of the future performance of any such term, covenant or condition or the future exercise of such right, but the obligation of the Customer with respect to such future performance will continue in full force and effect.
- **(F)** THESE TERMS AND CONDITIONS AND THE RIGHTS AND DUTIES OF THE PARTIES WILL BE GOVERNED AND INTERPRETED IN ACCORDANCE WITH THE LAWS OF THE STATE OF ILLINOIS.

This warranty applies within the fifty (50) United States, the District of Columbia and Canada.

LIMITED WARRANTY FOR CUSTOMER CARE SERVICES DIVISION ("RPSD")
PRODUCTS LISTED IN THE PRICE AND AVAILABILITY LIST

I. WHAT THIS WARRANTY COVERS AND FOR HOW LONG:

A. RPSD PRODUCTS OTHER THAN BATTERIES:

The Radio Products and Services Division of the Commercial, Government and Industrial Solutions Sector of Motorola, Inc. or, if applicable, Motorola Canada Limited ("Motorola") warrants the Motorola, Inc. manufactured radio communications product, including original equipment crystal devices and channel elements ("Product"), against material defects in material and workmanship under normal use and service for a period of One (1) Year from the date of shipment. Motorola, at its option, will at no charge either repair the Product (with new or reconditioned parts), replace it with the same or equivalent Product (using new or reconditioned Product), or refund the purchase price of the Product during the warranty period provided purchaser notifies Motorola according to the terms of this warranty. Repaired or replaced Product is warranted for the balance of the original applicable warranty period. All replaced parts of the Product shall become the property of Motorola.

This express limited warranty is extended by Motorola to the original end user purchaser purchasing the Product for purposes of leasing or for commercial, industrial, or governmental use only, and is not assignable or transferable to any other party. This is the complete warranty for the Product manufactured by Motorola. Motorola assumes no obligations or liability for additions or modifications to this warranty unless made in writing and signed by an officer of Motorola. Unless made in a separate written agreement between Motorola and the original end user purchaser, Motorola does not warrant the installation, maintenance or service of the Product.

Motorola cannot be responsible in any way for any ancillary equipment not furnished by Motorola which is attached to or used in connection with the Product, or for operation of the Product with any ancillary equipment, and all such equipment is expressly excluded from this warranty. Because each system, which may use the Product, is unique, Motorola disclaims liability for range, coverage, or operation of the system as a whole under this warranty.

B. RPSD Two-Way Rechargeable Batteries:

1. Capacity and Workmanship Warranty

MOTOROLA INC. ("MOTOROLA") warrants the MOTOROLA manufactured two-way radio batteries listed below ("Product"). Products will be replaced (with new or reconditioned parts) during the applicable Warranty Period if the battery capacity falls below 80% of rated capacity unless otherwise noted. For the workmanship defects listed below Motorola warrants against defects in workmanship under normal use and service for a period of time from the date of manufacture* as scheduled below ("Warranty Period"):

| CAPACITY/PRODUCT | Workmanship Warranty |
|-----------------------------------|----------------------|
| Motorola Manufactured | 24 month capacity/ |
| NiCd impres™ Batteries | 24 month workmanship |
| Motorola Manufactured | 18 month capacity/ |
| NiMH impres™ Batteries | 24 month workmanship |
| Motorola Manufactured | 18 month capacity/ |
| Li-ion impres™ Batteries | 24 month workmanship |
| Motorola Manufactured | 18 month capacity/ |
| NiCd Premium Batteries | 24 month workmanship |
| Motorola Manufactured | 12 month capacity/ |
| NiMH and Li-ion Premium Batteries | 24 month workmanship |
| Motorola Manufactured | 12 month capacity/ |
| NiCd, NiMH Power Batteries | 12 month workmanship |
| MAGONE Competitive | 12 month capacity/ |
| Batteries (all manufacturers) | 12 month workmanship |

EXCEPTIONS

The Motorola NiMH NTN7396AR prismatic battery is warranted for six (6) months capacity and twenty-four (24) months workmanship from the date of manufacture.XTS3500 mAh NiMH RNN4006BR, RNN4007AR 70% to minimum (3000 mAh) for 12 months and has a 24 month workmanship warranty.

NiCd impres™ Batteries when used with an impres™ charger qualify for a 24/24 month replacement warranty.

NiCd impres™ Batteries when used with an impres™ charger qualify for a 24/24 month replacement warranty.

impres™ NiMH/Li-ion used with a non-impres™ charger qualify for a 12 month capacity/24 month workmanship warranty.

*Date of manufacture is determined by the date code shown on the Product.

A Product will be replaced during the applicable 24 Month Workmanship Warranty Period if:

- 1. the battery develops leakage;
- 2. the battery clip breaks due to poor workmanship
- 3. the battery's seam welds open; or
- **4.** the battery has contact problems with either the applicable two-way radio or battery charger due to misalignment or plastic residue blocking the battery's contacts. Motorola, at its option, will replace the Product (with new or reconditioned parts) at no charge during the applicable warranty period provided it is returned in accordance with the terms of this warranty. Replacement batteries are warranted for the balance of the original applicable warranty period.

Motorola, at its option, will replace the Product (with new or reconditioned parts) at no charge during the applicable warranty period provided it is returned in accordance with the terms of this warranty. Replacement batteries are warranted for the balance of the original applicable warranty period. This warranty is extended by MOTOROLA to the original end user purchaser only and is not assignable or transferable to any other party. This is the complete warranty for the Product manufactured by MOTOROLA. MOTOROLA assumes no obligations or liability for additions or modifications to this warranty unless made in writing and signed by an officer of MOTOROLA. MOTOROLA cannot be responsible in any way for any ancillary equipment not furnished by MOTOROLA which is attached to or used in connection with the Product, or for operation of the Product with any ancillary equipment, and all such equipment is expressly excluded from this warranty. For battery recycling information please call 1-800-422-4210 for details and request your RBRC shipper ID registration form.

C. CELLULAR AND IDEN PHONE BATTERIES:

1. 12 Month Warranty:

MOTOROLA INC. ("MOTOROLA") warrants the MOTOROLA manufactured cellular and iDEN batteries listed below ("Product") against defects in material and workmanship under normal use and service for a period of time from the date of manufacture* as scheduled below ("Warranty Period"):

PRODUCT WARRANTY PERIOD

Motorola Manufactured

NiCd Batteries Twelve (12) Months

Motorola Manufactured

NiMH Batteries Twelve (12) Months

Motorola Manufactured

Li-ion Batteries Twelve (12) Months

2. 12 Month Workmanship Warranty:

For the workmanship defects listed below, Motorola warrants against defects in workmanship under normal use and service for a period of time from the date of manufacture* as scheduled below ("Warranty Period"):

PRODUCT WARRANTY PERIOD

Motorola Manufactured

NiCd Batteries Twelve (12) Months

Motorola Manufactured

NiMH Batteries Twelve (12) Months

Motorola Manufactured

Li-ion Batteries Twelve (12) Months

A Product will be replaced during the applicable 12 Month Workmanship Warranty Period if:

- 1. the battery develops leakage;
- 2. the battery clip breaks due to poor workmanship
- 3. the battery's seam welds open; or
- **4.** the battery has contact problems with either the applicable two-way radio or battery charger due to misalignment or plastic residue blocking the battery's contacts. Motorola, at its option, will replace the Product (with new or reconditioned parts) at no charge during the applicable warranty period provided it is returned in accordance with the terms of this warranty. Replacement batteries are warranted for the balance of the original applicable warranty period.

^{*} Date of manufacture is determined by the date code shown on the Product

This express limited 12 month warranty is extended by MOTOROLA to the original end user purchaser only and is not assignable or transferable to any other party. This is the complete warranty for the Product manufactured by MOTOROLA. MOTOROLA assumes no obligations or liability for additions or modifications to this warranty unless made in writing and signed by an officer of MOTOROLA. MOTOROLA cannot be responsible in any way for any ancillary equipment not furnished by MOTOROLA which is attached to or used in connection with the Product, or for operation of the Product with any ancillary equipment, and all such equipment is expressly excluded from this warranty.

II. GENERAL PROVISIONS:

This warranty sets forth the full extent of Motorola's responsibilities regarding the Product. Repair, replacement or refund of the purchase price, at Motorola's option, is the exclusive remedy. THIS WARRANTY IS GIVEN IN LIEU OF ALL OTHER EXPRESS WARRANTIES. MOTOROLA DISCLAIMS ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT SHALL MOTOROLA BE LIABLE FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE OF THE PRODUCT, FOR ANY LOSS OF USE, LOSS OF TIME, INCONVENIENCE, COMMERCIAL LOSS, LOST PROFITS OR SAVINGS OR OTHER INCIDENTAL, SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE SUCH PRODUCT, TO THE FULL EXTENT SUCH MAY BE DISCLAIMED BY LAW.

III. HOW TO GET WARRANTY SERVICE:

Purchaser must notify Motorola's representative or call RPSD at 1-800-422-4210 within the applicable warranty period for information regarding warranty service.

IV. WHAT THIS WARRANTY DOES NOT COVER:

- **A.** Defects or damage resulting from use of the Product in other than its normal and customary manner.
- B. Defects or damage from misuse, accident, water, or neglect.
- **C.** Defects or damage from improper testing, operation, maintenance, installation, alteration, modification, or adjustment.
- **D.** Breakage or damage to antennas unless caused directly by defects in material workmanship.
- **E**. A Product subjected to unauthorized Product modifications, disassemblies or repairs (including, without limitation, the addition to the Product of non-Motorola supplied equipment) which adversely affect performance of the Product or interfere with Motorola's normal warranty inspection and testing of the Product to verify any warranty claim.

- **F.** Product which has had the serial number removed or made illegible.
- **G.** Freight costs to the repair depot.
- **H.** A Product which, due to illegal or unauthorized alteration of the software/firmware in the Product, does not function in accordance with Motorola's published specifications or with the FCC type acceptance labeling in effect for the Product at the time the Product was initially distributed from Motorola.
- **I.** Scratches or other cosmetic damage to Product surfaces that does not affect the operation of the Product.
- **J.** That the software in the Product will meet the purchaser's requirements or that the operation of the software will be uninterrupted or error-free.
- K. Normal and customary wear and tear.
- **L.** Non-Motorola manufactured equipment unless bearing a Motorola Part Number in the form of an alpha numeric number (i.e., TDE6030B).
- **M.** Processing of date data from, into, and between the year 2000 and the year 2001.

V. GOVERNING LAW

In the case of a Product sold in the United States and Canada, this Warranty is governed by the laws of the State of Illinois and the Province of Ontario, respectively.

VI. PATENT AND SOFTWARE PROVISIONS

Motorola will defend, at its own expense, any suit brought against the end user purchaser to the extent that it is based on a claim that the Product or its parts infringe a United States patent, and Motorola will pay those costs and damages finally awarded against the end user purchaser in any such suit which are attributable to any such claim, but such defense and payments are conditioned on the following:

- **A.** that Motorola will be notified promptly in writing by such purchaser of any notice of such claim;
- **B.** that Motorola will have sole control of the defense of such suit and all negotiations for its settlement or compromise; and
- **C.** should the Product or its parts become, or in Motorola's opinion be likely to become, the subject of a claim of infringement of a United States patent, that such purchaser will permit Motorola, at its option and expense, either to procure for such purchaser the right to continue using the Product or its parts or to replace or modify the same so that it becomes noninfringing or to grant such purchaser a credit for the Product or its parts as depreciated and accept its return. The depreciation will be an equal amount per year over the lifetime of the Product or its parts as established by Motorola.

Motorola will have no liability with respect to any claim of patent infringement which is based upon the combination of the Product or its parts furnished hereunder with software, apparatus or devices not furnished by Motorola, nor will Motorola have any liability for the use of ancillary equipment or software not furnished by Motorola which is attached to or used in connection with the Product. The foregoing states the entire liability of Motorola with respect to infringement of patents by the Product or any its parts thereof.

Laws in the United States and other countries preserve for Motorola certain exclusive rights for copyrighted Motorola software such as the exclusive rights to reproduce in copies and distribute copies of such Motorola software. Motorola software may be used in only the Product in which the software was originally embodied and such software in such Product may not be replaced, copied, distributed, modified in any way, or used to produce any derivative thereof. No other use including, without limitation, alteration, modification, reproduction, distribution, or reverse engineering of such Motorola software or exercise of rights in such Motorola software is permitted. No license is granted by implication, estoppel or otherwise under Motorola patent rights or copyrights.

TO OBTAIN WARRANTY SERVICE:

Replacement Parts/Kits/Accessories

To obtain warranty service on replacement parts/kits or test equipment, the item must be delivered, transportation prepaid to:

Motorola
Radio Products and Services Division
Attn: Warranty Dept
2222 Galvin Drive
Elgin, Illinois 60123

Transportation charges for the return of the product to Purchaser shall be prepaid by Motorola by calling 1-800-422-4210. This warranty is void, as determined in the reasonable judgement of Motorola, if:

- (a) The product has not been operated in accordance with the procedures described in the operating instructions;
- (b) The seals on non-user serviceable components or modules are broken;
- (c) The product has been subject to misuse, abuse, damage, accident, negligence, repair or alternation.

Each shipment of returned items must include a Motorola Warranty Replacement Form, with each item being returned listed by quantity, type, frequency of code, defect code, radio model number and serial number (when returning items removed from a Motorola radio) sales or factory order number. Items returned with no manufacturer's date code will be assumed to be out of warranty and subject to charges for repair or replacement.

In the event that Motorola in its discretion elects to replace an item, and a replacement is ordered prior to the return of the defective product, credit for the defective product will be issued against the replacement order provided that the defective units covered by this warranty are returned within forty-five (45) days of the replacement order date and the replacement factory order number is properly provided.

After 45 days, Motorola's sole obligation is limited to replacement of the defective unit covered by this warranty with a unit that meets original factory specifications, and credit cannot be issued.

CELLULAR MOTOROLA MANUFACTURED ACCESSORIES

Effective January 1, 2000, a new Limited Lifetime Warranty was instituted for the following accessories purchased after January 1, 2000: vehicle power adapters, carry cases, holsters, chargers (desktop bases and AC power supplies) and hands-free headsets. For all other accessories, and all accessories purchased prior to January 1, 2000, the warranty period begins on the date of the consumer purchase and lasts for twelve months. Proof of purchase documentation or the MSN/SN of the associated telephone determines the warranty period. Although the date codes are on some of the accessories or ancillary components such as batteries, there are no date codes on others such as antennas. Therefore, the best way to determine if an accessory is in warranty is to verify the consumer's proof of purchase. The proof of purchase documentation must be included for replacement under warranty. Accessories are not considered repairable.

Warranty policies for Cellular parts are indicated in the "Authorized Cellular Servicer Agreement". Test Equipment. Motorola manufactured items, including service monitors, should be returned to the Test Equipment Service Center and processed per the Test Equipment Products Limited Warranty on the following page. Third party manufactured items should be returned to the facility designated by the Manufacturer. Motorola will notify the customer who to contact for warranty service of said items. For further information call:

In the U.S. and Canada: 1-800-422-4210 Outside the U.S: 1-847-538-8023

U.S. Federal Government: 1-800-826-1913

Warranty Service

MOTOROLA TEST EQUIPMENT PRODUCTS LIMITED WARRANTY (EXCLUDES EXPORT SHIPMENTS)

Motorola Test Equipment Products, and Motorola Service Monitors, (herein the "product") that are manufactured or distributed by Motorola's Radio Products and Services Division are warranted by Motorola for a period of one (1) year from date of shipment against defects in material and workmanship. This express warranty is extended to the original purchaser only. In the event of a defect, malfunction, or failure during the period of warranty of a Motorola manufactured Test Equipment items, Motorola, at its option, will either repair or replace the product providing Motorola received written notice specifying the nature of the defect during the period of warranty, and the defective product is returned to: Motorola, Test Equipment Service, 2216 Galvin Drive, Elgin, IL 60123 transportation prepaid. Proof of purchase and evidence of date of shipment (packing list or invoice), must accompany the return of the defective product.

For a RETURN AUTHORIZATION - PLEASE CALL 1-800-323-6967.

Transportation charges for the return of the product to Purchaser shall be prepaid by Motorola. This warranty is void, as determined in the reasonable judgement of Motorola, if:

- **(A)** The product has not been operated in accordance with the procedures described in the operating instruction;
- **(B)** The seals on non-user serviceable components or modules are broken;
- **(C)** The product has been subject to misuse, abuse, damage, accident, negligence, repair or alteration.

Many items manufactured by third parties are warranted directly by the manufacture. In such cases customers may be put in direct contact with the manufacturer's service facility for warranty repair or replacement. In no event shall Motorola be liable for any special, incidental or consequential damages. In the event Motorola elects to repair a defective product by replacing a module or subassembly, Motorola, at its option, may replace such defective module or subassembly with a new or reconditioned replacement module or subassembly. Only the unexpired warranty of the warranty product will remain in force on the replacement module or subassembly.

EXCEPT AS SPECIFICALLY SET FORTH HEREIN, ALL WARRANTIES EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE OR MERCHANTABILITY, ARE EXCLUDED
